

Ministries Through Medical Clinics

When asked if there was medical care available for the people in the village, one pastor replied that it was available, but the person must travel to the city and then pay a lot of money. "So," he said, "it is available but not really feasible for the common person." CWM provides 2 or 3 day medical clinics in the villages where the churches are established. We provide the funds for the doctors and nurses as well as the medicine and supplies. The doctors and usually nurses are indigenous and therefore can communicate easily and effectively for the correct diagnosis. For many, this is the only medical care they have received in a long time.

Go wide or go deep? Why not both?

We have planted over 400 churches in Africa and will continue to go wide and reach the world for Christ. However, we also feel that God is leading us to go deeper. During our 2014 mission to Africa, we discussed with our CWM-Africa staff and Methodist Church leaders the need to strengthen the churches we have started. In 2015, we conducted training seminars with churches that we had already planted. We also firmed-up the strategy for reaching least-reached groups, primarily in the Muslim northern parts of Nigeria, and in many isolated, rural villages.

Commit to the Lord whatever you do and he will establish your plans. -Psalm 16:3

NIGERIA

Witnesses to Authorities

Since the early 1990's, we have followed a fruitful plan of church-planting.

1. Identify new locations for churches
2. Train lay evangelists to pastor
3. Begin with Bible studies in each town
4. Hold evangelistic campaign and free medical clinic
5. Consecrate new churches with new believers as charter members
6. Provide pastor support for 1-3 years

On my account you will be brought before governors and kings as witnesses to them and to the Gentiles. -Matthew 10:18

Evangelism Through Worship Services

Prior to our mission, the lay evangelists who will lead the new churches, spend time in the villages visiting with people, telling them about Christ, and inviting them to be a part of the new churches. Then, during each mission, we hold evangelistic services in an open area in each village. Many come to know the Lord during this time, and these are the people who make up the membership of the new churches. Counselors are on hand each night to help them understand what being a follower of Christ means. There is also prayer time for healing and deliverance, and we often have the privilege of praying blessing over the new churches as well as their new evangelist.

Evangelism Through Community Visits

We were often fortunate to have time to walk through the villages prior to the evening services and visit with people. They are usually busy, just back from their fields and doing their daily chores, but seemed to enjoy talking with us and teaching us about their lives. This gives us a chance to share Christ by showing we were interested in them and by having an opportunity to talk informally with them.
